

# Intermac technology and Diamut tools shine at VITRUM 2021.

**Pesaro, 23 September 2021 – It's time for VITRUM, an international Fair that specialises in machinery, equipment and installations for glass, hosted at Fiera Milano Rho from 5 to 8 October 2021. Intermac and Diamut will bring the factory 4.0 to Milan through innovative technology, advanced software and cutting-edge tools.**

VITRUM is one of the most important international trade shows in the sector and offers a complete overview of the latest technology in the world of Intermac machinery and software and Diamut tools with ever-increasing performance levels. It's a superb opportunity to meet with our experts who, in conditions of absolute safety, will show visitors how to develop their factories from the 4.0 perspective.

## **INTERMAC AND DIAMUT**

**HALL 24**, will feature a selection of the most innovative Intermac solutions: machining centres, cutting tables, double edgers, waterjet cutting machines, and vertical machining centres integrated with vertical washing machines. VITRUM is also the perfect occasion for the launch of the new **IC software**, now available on all Intermac numerical control machines. The stand will also feature the full range of Diamut tools, designed to produce more and better at lower costs: cup grinders and peripheral grinders, drills, milling cutters, and slitting discs capable of working in perfect synergy with Intermac's sophisticated machines.

## **MILAN GLASS WEEK**

Biesse Group brands Intermac and Diamut will partner in MILAN GLASS WEEK, a media event planned to coincide with VITRUM and bring the world of glass and the related supply chain to the centre of the city, from 5 to 8 October. The four-day event will feature activities and events with glass-related themes (industrial, construction, design, hi-tech, artistic and much more) and will highlight sustainability.

## **VITRUM LIFE**

Intermac technology and Diamut tools occupy a special digital space on VITRUM Life, a publishing portal that hosts content related to glass in its many forms and applications: <https://vitrumlife.it/>.

**Intermac and Diamut at VITRUM, Hall 24: technology in action for the evolution of the factory 4.0.**

**Intermac** is the Biesse Group brand that designs, makes and sells machines and systems for processing glass, stone and metal. Founded in 1987, it has become a reference name for companies working in various industrial sectors from construction to furniture, and from automotive to aviation.

Biesse Group designs, manufactures and distributes systems and machines for processing wood, glass, stone, metal, plastic and composite materials. Founded in Pesaro in 1969 by Giancarlo Selci, it has been listed in the Star segment of the Italian Stock Exchange since 2001. 85% of its consolidated turnover is achieved abroad. It operates in over 160 countries with 13 manufacturing sites and a direct presence in the main world markets. Today it has 4,300 employees.
